

CITY TREE !

| | | |
|---|---|--|
| | | |
| <p>1 With the development of industry, environmental pollution (eg, automobile exhaust) has become more and more serious.</p> | <p>2 Peoples lives are getting unhealthy.</p> | <p>3 The city tree in the central square records people's health travel by summarizing the length of people bicycling and walking. The greater the length, the more light the tree emit.</p> |
| | | |
| <p>4 The APP shows the summation, ranking of healthy travel length, self health index and the status of city tree.</p> | <p>5 The brightening of city tree not only means that more and more people are beginning to travel healthily, but also that the automobile exhaust is becoming less and less.</p> | <p>6 When people walking and bicycling they are getting healthier and they also feel like contributing to the city. This is a mutual encouragement process.</p> |
